Hi Mary and Chris

Thanks for meeting with myself and other members of the Manning Clean Water Action Group (MCWAG) and friends in Taree yesterday.

It was a bitter sweet experience for myself. The independence and professionalism was comforting and empowering to me but the limits regards the terms of reference for your team was a bit of a shock to me at the time. After thinking it all through I guess I can understand why these limits are installed.

I will continue to source as much information as possible and encourage my friends and other MCWAG members to do the same.

Is the following link of interest to you? I have not validated or enquired about it other than to ask to person who posted it what is happening now about it. I understand that it is in QLD but I am simply passing on alleged evidence of what may happen in NSW.

The content of this letter is my own personal view and not that of MCWAG.
