Subject: Independent Review into CSG mining.

To: nswchiefscientist@chiefscientist.nsw.gov.au

Dear Professor O'Kane,

I am very encouraged to read in your initial report on CSG drilling and fracking. The five steps you lay out for government to take will give me confidence in the process of regulation of the industry.

I am particularly interested in the the members who make up the "independent" team that is reviewing the situation and also the meaning of "independent" in this context. There have been too many instances where pecuniary interests have not been declared or where there has been a prior history of association that would disqualify membership.

I would be most grateful if you provide me with some information that will assuage my concerns.

Regards

Trevor Edmond
