

## CSG Review must be broadened

Jean Cooney to: csg.review

27/04/2013 12:02 AM

History:

This message has been replied to and forwarded.

The Terms of Reference for the review should be broadened so that you, the Chief Scientist, is tasked with:

- Commissioning rigorous independent scientific research to properly assess the risks of coal seam gas mining.
- Identifying best practice methods for baseline monitoring of health impacts, water resources, air quality, soil quality, and fugitive emissions.
- Identifying areas of NSW that should be off limits to coal seam gas, due to unacceptable risks and impacts.
- Reviewing the impacts of coal seam gas on agriculture and other affected industries such as tourism and manufacturing.

Best regards

Jean Cooney
