Prof M O'Kane  
NSW Chief Scientist and Engineer

[nswchiefscientist@chiefscientist.nsw.gov.au](mailto:nswchiefscientist@chiefscientist.nsw.gov.au)

Dear Prof O'Kane,

**Review of coal seam gas activities in NSW**

I am deeply concerned about the lack of independent data available in relation to this industry. Would you therefore please commission truly independent sources of information in the development of your information papers on specific elements of coal seam gas operation and impact.

I am also deeply concerned about the impacts of coal seam gas on the aquifers and water catchments, the healthy soils necessary to produce food, human health as well as fauna health.

The mental stress associated with this industry on people living in townships and on farms must also be documented.

Yours faithfully,

Leonie Stubbs
