Dear Chief Scientist & Engineer,

I am curious about your call for Public Submissions CSG Review. Is this for a public poll on CSG or is this part of your scientific research on the environmental effect of CSG?

People will judge CSG differently depends on whether their personal interests will be affected or not. People live close to the CSG will surely be against it but most people are indifferent to the CSG, or rather don't know much about it. I think the history of humane modernisation has been followed by environmental changes. If you want our country to be a farming country and we are all farmers, and then we don't need CSG, we don't need scientific research, and there is no need to wait for your report.

Kind regards

**Charlie Zhang** M.Acc. CPA
