Dear Sir or Madam,

You are Australian, living on this land now. You may have children or if not, someone in your family has children.

Allow them to have a FUTURE with clean air, clean water, clean land.

You are already aware of the detrimental, devastating effects of Frakking, problems that WILL REMAIN for GENERATIONS to come.

If you close your eyes to what is already happening in the U.S. and other countries, we will not be able to stop this.

We live on a continent that relies on it's groundwater to SURVIVE and THRIVE.

This land does NOT belong to China, or India.

This land does NOT belong to international mining companies looking to make a quick profit at the expense of the people of this land.

Be wise, be intelligent, do Not allow these large corporate companies to destroy our homes, our future and pollute our nation.

Please be aware that decisions made now to continue with coal seam gas extraction will NOT benefit our nation today, tomorrow or EVER... because once our Great Artesian Basin is destroyed, there will be no turning back.

There is NO SECOND CHANCE.

Kind Regards

Betty Panayiotou
