TO: Review Chairperson

It is obvious to even the most under-educated Australians that CSG is not green energy .  
CSG and coal mining goes against policies and promises from state and federal governments

to embrace and adopt safe and sustainable energy technology .

Also, CSG exploration and extraction is ECO TERRORISM and offenders must be fined and jailed.

Politicians, scientists and public servants that support CSG are corrupt and must be investigated and prosecuted.

That politicians are ignoring their employers, the public and their interets, in-favor of corporations at the public's expense and cost.

Please send me any passed, current or future press releases, reports or updates, etc that you generate.

Thanks,

Roger Marchant
